Subject: Re: Anderson Engineering - Keystone Ridge & Mammoth Quarries - S/023/085

do you know who is doing the survey, I will look for the project, but given the closing of the federal year, work load and staff cuts, asap is not something i can do anymore.

>>> Joelle Burns 09/15/03 10:14AM >>>

Hello Jim: On September 8, we sent over a new notice for Anderson Engineering for their Section 25 Quartzite Ridge project which is located in Section 25 near the Mammoth Mine in Eureka.

Today, the operator revised that notice to also include a portion of Section 13:

Now the notice reads:

W1/2 of SE1/4 of NE1/4 and the
W1/2 of the NW1/4 of the SE1/4 of Section 13 and
S1/2 of the NW1/4 of the SW1/4 of Section 25
Township 10 South, Range 3 West
Juab County, Utah

Mr. Anderson informed me that they are having a certified surveyor perform the archaeological survey. He thought they were already working with your office in that regard.

They will submit the surveyor's report to you and us as soon as it is completed. They are anxious to get this project started ASAP and would like us both to expedite our review.

I will fax over a copy of the new revised notice and map for your review as well.

Thanks - Joelle
